2024 AZ ROC CONSTRUCTION SCIENCE TECHNOLOGY APPRENTICESHIP FAIR AT CHASE FIELD

#ConstructionScienceTechPro
#ComeForACareer #StayForTheGame

The Arizona Registrar of Contractors (AZ ROC) held the third annual AZ ROC Construction Science Technology Apprenticeship Fair and VIP Summit at Chase Field in Phoenix today, Wednesday, April 17, 2024.

The focus of the free Apprenticeship Fair is to connect students, members of the United States Armed Forces and veterans desiring careers in the construction science technology industry with construction companies from across Arizona that are actively recruiting for available apprenticeship positions and job openings.

The VIP Summit is designed to bring industry leaders, policy makers and educators together for in-depth discussion regarding workforce development in the construction science professions, to propose possible solutions to challenges faced by the industry in recruiting talent and to discuss the role industry leaders play in the BuilditAZ Initiative. Participation in the Apprenticeship Fair is free for students and school faculty, members of the United States Armed Forces and veterans. Those who attended the Fair received a complimentary ticket to this afternoon's Arizona Diamondbacks baseball game against the Chicago Cubs.

Please be on the lookout for a recap of today's event in the May Newsletter!

Retiring? AZ Dept. of Education invites contractors to keep building the future as teachers

Reporting about the state of the construction industry workforce often cites the alarming statistic that, for every five construction workers leaving, only one is joining the industry. And with nearly 1 in 4 construction workers older than 55, the need to recruit new talent is urgent.

The Registrar of Contractors (AZ ROC), in its mission to promote quality construction in Arizona, is helping to address this critical need through its annual Construction Science Technology Apprenticeship Fair, in partnership with the D-backs (returning to Chase Field in April); through its collaboration with Governor Hobbs' BuilditAZ Apprenticeship Initiative, and by spreading the message at every event we attend that construction is an honorable and rewarding career pathway that offers opportunities for paid hands-on-learning.

If you are a contractor nearing retirement, AZ ROC and the Arizona Department of Education (ADE) invite you to consider how you may continue to contribute your expertise to the industry by moving from the worksite into the classroom. Future generations need to know how to do it right and how to stay safe--can you help?

A message from the
AZ Department of Education:

Hello contractors, thank you for building the roads and structures we utilize daily. When you are ready, Arizona needs your building experience in the classroom to enable future generations to continue building within the state of Arizona.

Please contact the Arizona Department of Education Educator Certification unit at 602 542 4367 or certification@azed.gov for a pathway to certification. Construction Science Technologies are taught under the Industrial and Emerging certificate.

Requirements for certification are located at <https://www.azed.gov/node/27130>

ARIZONA DEPARTMENT OF
EDUCATION

Your current work and educational experience can quickly translate into a satisfying CTE teaching career.

Consider a Rewarding Career as a CTE Educator!

BECOME A CAREER AND TECHNICAL EDUCATION TEACHER

A CTE Teacher Certificate is perfect for people who have retired from their field of work.

- Apply your trade and technical skills and experience to teaching.
- If you have worked 3 years or more in your field, you may qualify for CTE teacher certification.
- Give back to your community by passing on your wealth of experience, knowledge, and skills.

MAKE A DIFFERENCE!

Pathways to CTE Teacher Certification include submission of:

1. 240 hours of work experience in an occupational area and a bachelor's degree.
2. 240 hours of work experience in an occupational area and a valid teaching certificate.
3. 6000 clock hours of verified work experience in an occupational area.
4. 5 years of verified work experience in the CTE occupational area and an Industry certification, license, or credential in the specified CTE Certification area.

How?

- Guidance for ADE CTE teacher certification. azed.gov/sites/TeacherCertificationChecklist.pdf
- Online resource that offers lesson plans. Curriculum Connection: cte.ctecaz.org/
- CTE Educator Professional Development. actecaz.org/premier-series/
- Workshops and mentorships are available to help you be a great instructor!

THE REGISTRAR'S REPORT

Greetings from the heart of legislative activity in Arizona! As the Arizona legislature continues the session, your ROC is engaged in crucial matters. Our primary focus remains on A.R.S. § 41-3024.04, commonly known as the "sunset" statute, which sets the termination date for the ROC on July 1st, 2024, unless continued.

Additionally, statutes in Title 32, Chapter 10, are slated for repeal on January 1st, 2025. These legislative processes are part of the regular oversight undergone by all state agencies every decade, with our last review conducted in 2014.

Currently, significant strides have been made. Our agency has undergone a thorough self-audit, and we've successfully filed HB 2091 for the continuation of our agency and statutes, with sincere appreciation to our bill sponsor Rep. Laurin Hendrix - D14.

The House Commerce Committee has recommended an 8-year extension, while the Senate Government Committee suggests a 2-year continuation. Our continuation bill HB2091 has successfully navigated through both chambers, receiving full support from the House of Representatives. Currently, it awaits further action in the Senate. We're actively in touch with our sponsor, Representative Hendrix, and are eagerly anticipating further action in the Senate. Stay tuned for more updates as we move forward. Thank you for standing by us and being an integral part of our journey!

What is one thing we should know about you as a leader?

I believe in the mission of the ROC and seek to find technical solutions to support that mission.

What does success look like for your department?

Meeting the needs of contractors and the public with technology that makes dealing with the ROC easy and transparent.

What is a project you've worked on at AZ ROC of which you are particularly proud?

The ROC Online Customer Portal. By putting new license applications, renewals, and complaint online, we have made submitting forms to the ROC much easier for our customers.

If you could have any superpower, what would it be?

Teleportation.

AZ ROC Outreach Highlights - March 2024

On a mission...

From meeting with homeowner associations and neighborhood groups, construction trade associations, government agencies, workforce development groups, and education stakeholders, AZ ROC representatives routinely engage with various organizations and community members in order to provide outreach and education in support of the agency's mission. If you would like to request an AZ ROC speaker for your event, fill out the "Request an AZ ROC Speaker Form" on the [Outreach and Education page](#).

In March, our CEO Tom Cole attended the Ceramic Tile & Stone Association of Arizona Meeting, where he provided an update on the Registrar's Report, discussed new information from the AZ ROC, and shared agency updates. He also included information about new workmanship standards and created a space to answer any questions the public might have had.

In March, Assistant Director Cindy Casaus attended the Skills USA State Competition. Which is in Phoenix and it is a showcase of career and technical education and industry in Arizona! We got ready for exciting activities, captivating sessions, speakers, and unrivaled networking. The event later proceeds to announce the Ultimate SkillsUSA Champion!

The 2-day Hands-on YSWCA Career & Trade Experience was designed for High School and Middle School students to explore a multitude of opportunities in career placement within our community. With over 50 local businesses providing a challenging introduction to their fields, this informative and interactive event introduced students to future employers, revealing a world of thrilling career possibilities within our community.

Thank you for inviting us!

Membership Meeting – Residential Architecture

When: April 23, 5:00pm - 7:00pm

Location: To Be Determined

Who Does this Benefit?

- General Contractors
- Trade Partners
- Vendors
- Safety Professionals
- Inspectors
- City / County Members
- Real Estate
- Building Management

Why Should You Join?

- Professional Networking
- Supporting Women in the Industry
- Mentorship Programs
- Community Engagement
- Continuing Education

ALCA

CERTIFIED

IRRIGATION TECHNICIAN

The ALCA Certified Irrigation Technician Training (ACIT) Program consists of a 3-day training including hands-on activities focused on the optimization of water usage and the efficiency of existing irrigation systems.

COST

Early Registration

\$450/Members, \$700/Non-Members

Registration *within 72 hours*

\$550/Members, \$800/Non-Members

DETAILS

Class 1: 7:30am - 2:30pm

Site Assessment

Maximizing Efficiency - Part 1

Class 2: 7:30am - 2:30pm

Maximizing Efficiency - Part 2

Troubleshooting & Repair

Class 3: 7:30am - 1pm

Mandatory in-person attendance

Hands-on Field Day at ALCA

Required to attend all 3 classes to receive access to ACIT Exam and Certification

Must have attended and passed the ACLP Irrigation Class, or equivalent field experience, including proficient use of multi-meter to register for ACIT Program

CERTIFICATION

Must attend all 3 classes and pass ACIT Exam to receive ACIT Certification

SITE ASSESSMENT

- Evaluate existing irrigation systems using checklist
- Site conditions - general plant health, plant problems, infrastructure problems, water pooling, plant type, microclimate, orientation
- Review plans, draw irrigation diagram
- Irrigation components - inventory and condition
- Zoning stations and controller programming
- Assess system baseline performance
- Determine Precipitation Rates (PR)

MAXIMIZING EFFICIENCY

- Determine how much water and pressure needed
- Manage pressure loss
- Determine plant water needs & calculate ET rates
- Calculate/maximize Distribution Uniformity (DU)
- Calculate run times for maximum efficiency
- Manage irrigation schedule according to ET
- Use water management technology and techniques

TROUBLESHOOTING & REPAIR

- Identify common irrigation malfunctions and identify solutions
- Practice the skills necessary to troubleshoot
- Repairing irrigation lines, sprinkler systems, controllers, and water management technology

 Shepherd
INSURANCE

Yavapai County Contractors Association and their members
have been doing amazing work together for 62 years.
YCCA realizes that many of our construction companies find it
difficult to recruit skilled workers to meet the steady demand.
This challenge is even greater for small- to medium-sized
business owners as they find themselves competing with large
construction companies with deep pockets and traditional
group healthcare packages.
Now, being a member of YCCA is even more valuable.

YCCA's Mission

The mission of the Yavapai County Contractors Association is to properly manage a construction industry association that transfers and promotes education, safety, political action and networking for the benefit of its members and promotes community protection education on construction issues for the citizens of Yavapai County.
